

## CMMI® Certification Training

AR Learners course on CMMI® for Development Version 1.3(CMMI®-DEV) exposes participants to the best practices that are adopted while implementing CMMI® (Capability Maturity Model Integration) models for improving performance and achieving business goals. CMMI®-DEV Version 1.3 is the preferred choice of organizations across the world to improve development processes in high-quality engineering. While understanding the fundamental concepts, you will also get a chance to understand how they are applied to practical scenarios through our interactive, hands-on sessions.

## Key Features

- Peoplecert approved course content
- 24x7 assistance and support
- Weekend batches for working professionals
- Learn as per your convenience
- Get practice tests from an examination perspective
- Hand book course Material
- Exam Simulators

## Who can attend?

This course is best suited for

- Anyone interested or involved in CMMI<sup>®</sup>  
-DEV based process improvement initiatives
- Individuals designated for a CMMI<sup>®</sup> -DEV appraisal
- Practitioners and managers in systems and software engineering, development, and quality improvement
- Process group members who are responsible for leading process improvement programs
- Anyone else interested in learning more about the CMMI

## Modes of Engagement

### Instructor-Led Classroom Training

3-Day CMMI® Certification exam prep classroom training workshops conducted worldwide.

### Instructor-Led Live Online Training

Provided to your company's employees across global locations through Citrix GoToMeeting or Cisco WebEx.

### Self-Placed E-Learning

Anywhere, anytime access to E-Learning through a Learning Management System for employees across the globe.

### Enterprise Training

In-House instructor-led 4-day CMMI® certification training in your office across global locations. We can also provide 2-day CMMI® Fundamentals training for your team to precede the CMMI® certification training.

## Prerequisites

This is an introductory course, and there are no prerequisites. Some basic knowledge of providing services, systems and / or software engineering quality management, and basic management principles will prove helpful.

## Course Agenda

- Introduction to CMMI® Components
- Model-based Process Improvement Concepts
- Learn about the Process Areas in the Model
- Understand the Benefits of CMMI® Implementation
- How CMMI® - DEV compares with other Models
- Process Areas and Process Area Relationships of the Model
- Institutionalization Practices

## Benefits

### From the Course:

- Understand the CMMI® framework and the rationale behind it
- Describe the components of the CMMI® -DEV model, the process areas and their relationships
- Describe the model content
- Understand the detailed requirements of the process areas in the CMMI® model
- Analyze and make valid judgments regarding the organization's implementation of process areas
- Turn weaknesses into strengths
- Be able to identify issues that should be addressed in performing process improvements using CMMI® -DEV, V1.3

### From the Workshop:

- 3 Day Classroom Training from an industry expert
- Downloadable e-book
- 21 PDUs
- Course Fee includes Certification Exam Fee

## About AR Learners

- AR Learners is a leading training provider, helping professionals across industries and sectors develop new expertise and bridge their skill gap for recognition and growth in the global corporate world. Developed with the intention of delivering high value training through innovative and practical approaches, AR Learners offers a wide range of services in training, learning and development in the fields of technology and management.
- The founders of the company are zealous young entrepreneurs, who were motivated by the need to fill a niche in the IT Training industry for professionals and they are aided in their goal by industry experts who conduct the workshops; igniting minds and motivating professionals to face on-the-job challenges
- AR Learners is an professional certification training provider catering its services globally across countries including USA , UK, CANADA, Australia, ,India, Middle East, Netherlands, Germany, France etc.
- With over 150 consultants and trainers, we have one of the largest pool of in-house experts in the industry. The training content, course material, and training methodology are developed by in-house subject matter experts and accredited by global certifying authorities to ensure the quality training experience.
